

QUALITY

That is the cause of the \$56,000,000 "Run" on the 3400 r.p.m. Chalmers

Whenever you see the Chalmers trade mark you always see the phrase "Quality First." Whenever you think Chalmers you think "Quality." And if you have been reading my ads or have been in my salesroom, you are impressed with the fact that the 3400 r. p. m. is a Chalmers car of unusual quality.

I've often said that it is, in my opinion, the greatest car the Chalmers Company has built. And I have an excellent reason for saying this. It is a step ahead of any preceding Chalmers because it performs a shade better. The Quality in the new Chalmers is the kind of quality that tells on the road and tells wonderfully.

Now it is just this exceptional quality, just this shade of improvement that has brought Chalmers sales and production ahead in leaps these twelve months past. Quality caused the \$56,000,000 "Run" on this single Chalmers model.

I don't think the men in charge of affairs at the Chalmers factory realized what they had in the 3400 r. p. m. Chalmers. At any rate they built only 18,000. More than they had ever produced in any previous season, 'tis true, but still not enough.

Those 18,000 were snapped up quickly. Then came a second lot of 10,000 more and these went just as fast.

Now the factory is building 20,000 more and I understand that Chalmers has no intention of stopping even there. It was Quality that caused this \$56,000,000 "Run." Chalmers certainly has the right idea in building cars. "Quality First," \$1090 Detroit.

Laredo, Tex., Oct. 3.—Deplorable conditions exist in Lampazos, eighty miles from the border, in the state of Nuevo Leon, where twenty deaths from starvation occurred in two days, according to a Texas ranchman arriving from there. At least half of the crops, which are said to have been good, has been confiscated by the government for military purposes, the rancher stated, adding that since his last visit to his ranch three hundred head of cattle had been stolen. NEW YORK TO LIFT BAN.

Discontinuance of Travel Inspection is Recommended.

New York, Oct. 3.—The epidemic of infantile paralysis which has prevailed in New York and vicinity since the early part of July has now reached such a low ebb that a discontinuance of travel inspection from the state of New York by the United States public health service has been recommended by Dr. Charles E. Banks, United States public health surgeon in charge of the situation here. The recommendation was made by Dr. Banks in a telegraph report to Surgeon General Blue at Washington. Dr. Banks said Pennsylvania and Florida have already lifted the quarantine against New York and that he had been advised that New Jersey would do likewise to-day. In the greater city for the twenty-four hours ending yesterday there were ten new cases, six less than the day before and eight deaths, an increase of two.

Twenty-One New Cases Upstate.

Week-end reports of twenty-one cases of infantile paralysis up-state and one death from the malady, were made public by the state department of health yesterday. These figures covered the period between 5 p. m., Saturday and this noon.

MOTHER LOVE AIDS SON IN TRENCHES

It Brings Relief to Boy Standing His Watch Deep in Mud

Once upon a time, only a few months after this terrible world war had begun, Private Bailey, a soldier in the ranks, had stood for days in the trenches "somewhere in France." The cold rains soaked him to the skin; the mud was deep. He had no rest. Weary and aching with rheumatic pains, he recalled the faith his mother had in Sloan's Liniment. He asked for it in his next letter home. A large bottle was immediately sent him, and a few applications killed the pain, once more he was able to stand the severe exposure. He shared this wonderful muscle-soother with his comrades, and they all agreed it was the greatest "reinforcement" that had ever come to their rescue. At your druggist, 25c, 50c and \$1.00 a bottle.

WAITSFIELD

Appeal from Listers' Appraisal Causes Interesting Case.

The board of appraisers for Washington county, consisting of Judge C. D. Edgerton of Northfield, Senator O. L. Martin of Plainfield and Col. H. S. Foster of Calais, were in town Monday of last week to hold a hearing in the case of Waitfield vs. W. C. Joslyn—a case arising from an appeal made by Mr. Joslyn from the listers' appraisal of his registered Holstein bull. The original appraisal for taxation was \$500, which, upon appeal by Mr. Joslyn to the local board of civil authority, was reduced to \$250. The listers promptly appealed from this decision to the state tax commissioner, who appointed the above men to furnish him with their judgment as to the proper appraisal of the animal. The case has attracted considerable attention of men over the state who are interested in registered stock, as no uniform system of values for taxation has yet been adjusted for this class. The hearing was held in the library and consisted of testimony of the listers and of several of the board of civil authority, the several witnesses giving their personal ideas of the real value of the animal, which, as yet, has no stock to show. The decision of the board will be given Tax Commissioner Plumley and, if accepted by him, will be forwarded to the local town clerk as final.

Pastor A. L. Huntley of Morrisville will lecture at the library hall, Waitfield, Sunday, Oct. 8, using as his topic, "Two Great Kings and Their Kingdoms Contrasted," which will be of deep interest to all. Seats free and no collection. All are welcome.

Algonquin Rebekah lodge, No. 67, of Warren has been invited to work the degree at the district meeting, to be held with Maple lodge Oct. 20, at Waitfield. Programs of the meeting will be given out soon.

Rev. William Shaw of Montpelier will speak at the M. E. church Friday, Oct. 6, at 8 p. m. Public cordially invited. At Ceres, Cal., Sept. 26, Mrs. Caroline Clark, widow of the late Rev. Pliny R.

Good Old Home-Made Family Cough Remedy

Much Better than the Ready-Made Kind—And Cheaply Prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you would hardly have in them all the curative power that lies in this simple "home-made" cough syrup which takes only a few minutes to prepare. Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents and gives you a full pint of really better cough syrup than you could buy ready-made for \$2.50. Tastes pleasant and never spoils. This Pinex and sugar syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes that line the throat, chest and bronchial tubes, so gently and easily that it is really astonishing. A day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, there is nothing better. Pinex is a most valuable concentrated compound of genuine Norway pine extract, combined with guaiaecol and has been used for generations to break up severe coughs. To avoid disappointment, be sure to ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.
